

Quantum Energy Workshop

On Sunday, November 29, 2009 noon to 3 p.m. - \$50

This is a 3 hour fun, interactive, energizing, learning “playshop.”

Get the scoop on what Quantum Physics and Quantum Energy really means, what some of the therapies are and why they are so effective in helping our body heal, and then we will EXPERIENCE it.

I will use my Quantum Biofeedback system to find energy distortions and health issues that resonate with the **group**. The “*Metaspace*” setting in the *Life System* is effective for group sessions or distance healing. You will leave feeling lighter and energized. The Quantum Biofeedback system will prioritize the frequencies to benefit the group, such as: hormones, back pain, candida, vitamins, lymph detox, and beyond - it’s Quantum so the possibilities are endless.

We will practice and play with some simple tools - how to muscle test for vitamins and foods, and simple techniques you can learn to balance your energy every day.

We will do some fun things like chakra and meridian balancing, toning, a visualization meditation, perhaps enjoy a special Mantra for our healing day. Feel your intuitive field expanding!

The goal is to START AWAKENING YOUR LIFE ESSENCE, by experiencing Chinese Energetic Medicine, Quantum Biofeedback, Kinesiology, Quantum Bio-Physics and more. I will seal our experience with a **Yuen Method**™ correction on the physical, mental, emotional, psychological, psychic and spiritual level. Handouts provided.

Suggestion: Bring a notebook and wear comfy clothing. Coffee, tea and water supplied.

Held at the Days Inn, 2649 Highway 97 North, Kelowna, BC – Main floor meeting room

RSVP Required – Pre-Payment by phone or in person, credit card and debit accepted.
